G.B. ENTERPRISES WELCOMES NEW VP OF FINANCE

Bellingham, Wash., January 22, 2010 – World-leading power systems manufacturer, G.B. Enterprises (GBE), recently announced the appointment of Andy Anderson as its VP of Finance.

“We are proud to welcome a strong leader like Andy on our team,” said Charles Edwards, President and COO of GBE. “Andy’s financial management skills, excellent computer systems expertise and team-building initiatives are exactly what we need to lead GBE into the next level of improved sales, cash flow, financial growth and profitability.”

Anderson’s responsibilities include heading up the Accounting functions at GBE, in addition to overseeing operations in both the Administrative Information Systems (AIS) and Enterprise Software Management.

“Since we opened our doors more than 30 years ago, we have built powering products with an uncompromising commitment to efficiency, quality and reliability,” said Grace Borsari, CEO of GBE. “Through his experience, Andy has demonstrated the leadership skills necessary to help us continue our strong manufacturing tradition.”

Anderson brings 32 years of experience in cost accounting, financial analysis, strategic planning, cash management and budgeting. He comes to GBE having held key financial and consulting positions at Price Waterhouse LLC, Hugh McNiven Company, T&A Supply, Anderson Financial Services and Heath Tecna. Most recently, Anderson successfully managed the segment financial administration for B/E Aerospace (NASDAQ:BEAV) in Miami by contributing significantly to a large manufacturing expansion and turning losses into substantial profits during the short period of three years.

G.B. Enterprises, a member of The Alpha Group, was founded in 1978, by Grace Borsari, to manufacture backup supply systems for the cable TV and telecommunications markets. Over the years, GBE has specialized in manufacturing products for communications service providers around the world.

The Alpha Group represents a global alliance of independent companies that share a common philosophy create world-class powering solutions for communication, commercial, industrial and renewable energy markets.
