## FXM Communication Module

Network Management Interface

- Remotely monitors UPS status and views automatic event notification
- Upgrades firmware via Web browser
- Maintains performance statistics and settings through a standard UPS MIB
- Configures scheduled settings for shutdown, startup and self-test function
- Streamlines system maintenance through a user-friendly graphical interface

The FXM Communication Module is a compact system controller designed for the seamless set up and operation of Alpha power systems. By utilizing TCP/IP technology, the user can configure, monitor and control Alpha's UPS power equipment through a network Web browser. This module can be integrated into an existing network management platform that utilizes industry standard protocols.

## FXM Communication Module

### Remote UPS Monitoring and Management

- HTTP: Hyper Text Transfer Protocol allows remote UPS monitoring and management through Web browsers such as Microsoft Internet Explorer.
- SNMP: Simple Network Management Protocol allows centralized UPS monitoring and management through a network management system such as HP Open View or SNMPC.

### Proactive UPS Event Handling

Event Log: Automatically records and displays UPS events, warnings and time stamps.

UPS Status Notification: SNMP notifies multiple hosts of UPS status and warning messages.

Email Notification: Power events can be sent through email.

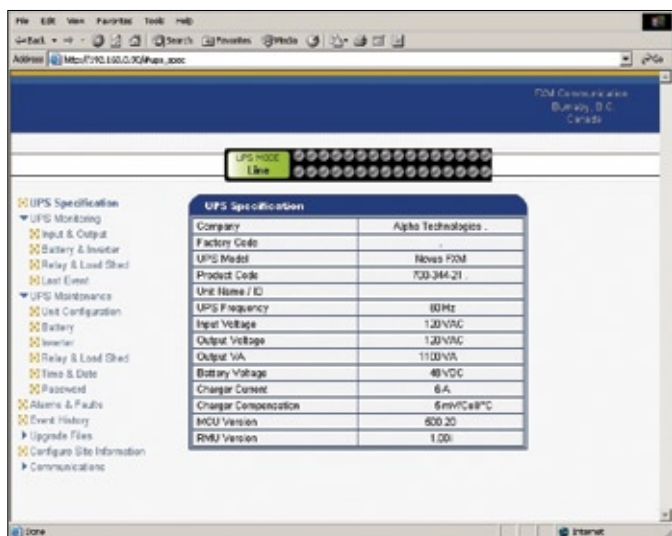

### Intelligent UPS Management

User Scheduling: Allows configuration of scheduled settings for shutdown, startup and self-test functions.

## Specifications

CPU:	32-bit micro controller
RAM:	8MB
Flash ROM:	4MB
LAN Interface:	Auto-sense 10/100Mbps Fast Ethernet
Network Protocol:	TCP/IP, UDP, SNMP, SNT, HTTP, SMTP
LED:	LAN 10/100 Link
Power Consumption:	3W max.
Miscellaneous:	IP and hardware reset buttons
Language:	English (default); supports all unicode-based languages
Firmware Upgrading:	Network upgrade; fail-safe network upgrade
System Security:	Password protection for system operation and administration
Approvals:	CE, FCC Class B

The Novus FXM Graphical User Interface (GUI) operates like a Web-based or Windows-based screen.
