

Power Press Release

ALPHA TO EXHIBIT AT THE 2008 SCTE CABLE-TEC EXPO

Bellingham, Wash. June 20, 2008 – World leading power systems provider and a member of The Alpha Group, Alpha Technologies is pleased to be exhibiting at the 2008 SCTE Cable-Tec Expo in Philadelphia, Pennsylvania, June 25-27.

“The SCTE Cable-Tec Expo is central to our business,” said John Hewitt, VP Sales for Alpha Technologies. “The opportunity to see and talk to such a wide range of our customers in one place, as well as take the pulse of the cable industry, is indispensable. As an exhibitor at the Cable-Tec Expo since its inaugural year, we are proud to be taking part in its 25th anniversary.”

With more than 30 years in the powering business, The Alpha Group has become a market leader in providing powering solutions in the cable broadband, industrial, telecommunications, traffic, security and renewable energy industries.

Featured products for Alpha at the Cable-Tec Expo include:

- **Node Power System (NPS):** An integrated CableUPS® system for multi dwelling units, business parks, node segmentation and plant extension applications. It is an ideal solution for back-up power where traditional equipment is too large and bulky.
- **Northern Enclosure:** An outdoor enclosure designed with integrated storm hoods and Z-bracket vents to withstand extreme cold weather conditions such as blizzards.
- **Generator Expansion Module (GEM):** An option on Alpha PWE or UPE enclosures to house a portable generator. The GEM is an innovative way of expanding runtimes and protecting your power network against extended power outages during the most volatile conditions.
- **Battery Expansion Cabinets:** A simple plant hardening tool to protect your power network and support developing Quad Play services.
- **Continuity Status Monitoring Software version 3.3:** Includes features such as a graphic mapping system, automatic notification options, advanced event history and a customizable user interface.
- **Alpha Technologies Services:** A division of The Alpha Group offering **Depot Repairs** and **Field Services** to help you maintain and extend the life of your broadband power network investment.

Please join us at booth 1442 to learn about these and other Alpha innovations.

Alpha Technologies Inc. develops power conversion, protection and standby products for cable television and telecommunications, including custom, application-specific power solutions. In addition to product development, Alpha Technologies provides a comprehensive range of installation and maintenance services to support its global customer base. Alpha Technologies is a member of The Alpha Group of companies.

The Alpha Group represents a global alliance of independent companies that share a common philosophy – create world-class powering solutions for communication, commercial, industrial and renewable energy markets.
