

Smart Pack

Dual Inverter Module Case

- Durable and lightweight case
- Antistatic cushioning to protect Inverter Modules
- Fits any combination of XM2 I²M or XM3 Inverters
- Discounted pricing when purchasing case with Inverter Modules
- Extra compartment space to store:
 1. Spare component case
 2. DOCSIS™ transponders

Alpha's Smart Pack offers a rugged, lightweight case manufactured specifically to house Alpha Inverter Modules.

The Dual IM Case has a strong, durable exterior with a soft interior to guard the Inverter Modules from damage in transport. In addition, the protective foam interior is antistatic, minimizing the chances of static electricity-induced damage to circuit boards.

To avoid unnecessary truck rolls, technicians can now carry an emergency supply of Inverter Modules and other spare components in the maintenance truck to be used during regular maintenance or in the event of unexpected component failures while in the field. Due to its ability to house Inverter Modules for both Alpha's XM2 and XM3-HP power supplies, customers will have the ability to customize their case with specific components as needed to best fit in their network.

Specifications

Weight (Lbs/Kgs)	
Empty IM Case	6.2 / 2.8
Case with two I ² M	20.8 / 9.5
